PROFILE

Computer Science undergraduate at the University of Westminister (IIT, Colombo) with hands-on experience in full-stack web development, mobile applications, and algorithm-driven systems. Proficient in Python, Java, JavaScript, TypeScript, Dart, and Flutter, with a proven track record of building functional, user-focused applications across web and mobile platforms. Developing interest in IT security and system design, passionate about creating clean, efficient software that solves real-world problems.

PROJECTS

Wanderlust — Premium Full-Stack Travel Blog 2026 React · Node.js · Express.js · MongoDB Atlas · Firebase · Vercel

- Built a premium full-stack travel blog featuring an interactive destination search engine, dynamic detail modals, and a newsletter subscription registry.
- Integrated Firebase Authentication for secure email/password user registration and sign-in with persistent session state management.
- Implemented a decoupled REST API using Express.js serverless functions connected to a cloud-hosted MongoDB Atlas database with CORS enabled.
- Engineered a fully mobile-responsive interface using custom CSS variables, glassmorphic styling, and a floating smooth-scroll controller.

EduFlow — School Administration System 2026 React · TypeScript · Express · PostgreSQL · Prisma · JWT

- Developed a full-stack dashboard to streamline school operations including student tracking, teacher rosters, class schedules, and billing management.
- Migrated client-side state into a secure serverless REST API protected by custom JWT authentication middleware and Bcrypt password hashing.
- Designed a relational PostgreSQL database schema with Prisma ORM, implementing a transactional ledger with dynamic PDF/print invoice generation.
- Engineered a personalised Student Portal featuring dynamic weekly timetables, attendance tracking, and individual fee statement logs.

Govi Sahaya — Agriculture Support Mobile App 2025 Flutter · Dart · AI (Image Classification)

- Developed an AI-integrated cross-platform mobile app to help farmers identify crop diseases and manage agricultural activities.
- Integrated AI-based disease detection and personalised treatment recommendation features for efficient crop management.
- Implemented real-time notifications, offline data storage, and OOP state management for modular, maintainable code.

Algorithm Visualizer 2026 HTML5 · CSS3 · JavaScript

- Built an interactive web application to visualise algorithms including Bubble Sort, Binary Search, and Matrix Multiplication with step-by-step animations.
- Implemented both automatic and manual animation modes with real-time input handling and visual feedback to enhance learning.

Climate Action Website 2025 HTML5 · CSS3 · Tailwind · JavaScript

- Built a responsive web application raising awareness on climate change, featuring animated splash screens, navigation, and in-app routing.
- Used semantic HTML and Tailwind CSS for a clean, accessible, mobile-first layout structure.

Task Manager Application 2025 Python · Tkinter · OOP

- Built a GUI-based task manager with add, edit, delete, and sort functionality using JSON/TXT files for persistent storage.
- Applied object-oriented programming with reusable classes to maintain clean, modular code architecture.

TECHNICAL SKILLS

Languages Python, Java, JavaScript (ES6+), TypeScript, Dart, HTML5, CSS3

Frameworks React.js, Node.js, Express.js, Flutter, Flask, Tailwind CSS

Databases MongoDB, PostgreSQL, MySQL

Auth & Cloud Firebase Authentication, JWT, Bcrypt, MongoDB Atlas, Vercel

ORM & Tools Prisma ORM, Git, GitHub, VS Code, Canva, JavaFX

Concepts REST API design, OOP, full-stack development, CRUD applications, responsive design, session management

EDUCATION

BSc (Hons) Computer Science — 2025 – Present

University of Westminster, UK affiliated with Informatics Institute of Technology (IIT), Colombo

G.C.E. Advanced Level (Commerce Stream) Prince of Wales' College, Moratuwa — 2022 – 2024

G.C.E. Ordinary Level Prince of Wales' College, Moratuwa — 2020 – 2021

Diploma in English & Communication Skills University of Moratuwa — 2025

Diploma in Information Technology & Management Future Care International Campus — 2022

Full-Stack Development Program (Online) University of Moratuwa — 2026

VOLUNTEERING & PARTICIPATION

Volunteer — Algorand Foundation IIT Blockchain Workshop 2025

Participated as an active volunteer in the IIT Blockchain Event, engaging with blockchain fundamentals and the Algorand ecosystem.

Member — IEEE (Institute of Electrical and Electronics Engineers)

Active member of IEEE, engaging with the global engineering and technology community.

Attendee — "Work Smarter with AI" Workshop, conducted by Prof. Nuwan Kodagoda

Explored AI, ML, Deep Learning, and Generative AI and their practical applications in industry and daily life.

LANGUAGES

English (Professional Proficiency) | Sinhala (Native)
